H.H. DORJE CHANG BUDDHA III

In 2006 a manuscript copy of the book *A Treasury of True Buddha-Dharma*, which documents a few of the many accomplishments of His Holiness Wan Ko Yeshe Norbu (Master Wan Ko Yee), was distributed to the leaders of various Buddhist sects. These were incarnated Buddhas and Bodhisattvas who were greatly accomplished themselves. After reviewing the book, they were shocked and wondered what type of person had come to this world. A number of them entered into a deep samadhi state and traveled to the dharma realms to investigate just who His Holiness Wan Ko Yeshe Norbu really is, while all of the other people of holy virtue came to the same conclusion just from reading the book.

This book has now been published as *H.H. Dorje Chang Buddha III*. It reveals what many of these dharma kings and rinpoches found and includes their certificates of recognition and congratulatory letters. Never in the history of Buddhism has anyone received such a large number of recognitions and written congratulations from great dharma kings and rinpoches of the highest order in the world. These great dharma kings and rinpoches found that His Holiness Wan Ko Yeshe Norbu is the highest and greatest Buddha in the dharma realm in that His Holiness is the true incarnation of Dorje Chang Buddha. That is, they discovered that His Holiness is H.H. Dorje Chang Buddha III.

His Holiness Wan Ko Yeshe Norbu's status was announced to members of Congress, their staffs, ambassadors, and other dignitaries on April 3, 2008 in Washington, DC. This special event, reported on by the BBC and in the languages of many countries around the world, was held in the ornate Member's Room of the Library of Congress. It was jointly held by the Library of Congress and the International Buddhism Sangha Association, with the assistance of the Organization of American States, the American Diplomatic Corps, and others.

The book H.H. Dorje Chang Buddha III reveals the true identity of this holy Buddha and how and why He came to this world. This book contains 30 categories of accomplishments of His Holiness plus a special discourse entitled "What Is Cultivation?" The book also contains more than 108 holy occurrences and numerous personal testimonials. Examples include the bestowal of true holy nectar from the sky by the Buddhas, rainbow body states, and other evidence of enlightened activity. Many of this Buddha's disciples are incarnations of great ancient virtuous ones who are on the level of Buddhas, Bodhisattvas, or Venerable Ones.

The book demonstrates the outstanding, unprecedented, and complete mastery of exoteric Buddhism (*the Tripitaka*), esoteric Buddhism, and the Five Vidyas attained by H.H. Dorje Chang Buddha III Wan Ko Yeshe Norbu. Although the Five Vidyas are simplistically defined as Healing, Craftsmanship (art and technology), Sound, Causality (logic), and Inner-Realization, they really represent all that is good in the universe—the original or true nature of everything. Very briefly, they include fixing that which is broken, incomplete, or inferior; creating beauty or joy; all forms of communication by sentient and non-sentient beings or things; the relationship between cause and effect; and supernormal powers. The Five Vidyas are the manifestation of the powers and wisdoms of holy beings. These vidyas represent the realization of Buddhas and Bodhisattvas—they are the result of what holy beings do. They encompass everything seen and unseen, animate and inanimate in the universe that is beneficial to living beings. To develop everything that is good is called "bright (vidya)." Everything in the entire universe is classified into five aspects of brightness and darkness. That is the real meaning of the Five Vidyas.

The accomplishments of H.H. Dorje Chang Buddha III Wan Ko Yeshe Norbu are not limited to the human realm or even to sentient beings. Animals and beings from other realms have taken refuge in His Holiness and come to listen to His discourses. In order to manifest holy power from beyond the Three Worlds, His Holiness has also taken mist from the air with His hand, put it inside a hole in a sculpted boulder, and made it stay there. This miraculous creation is now on display in California for all

to appreciate. Those who see it are amazed and blessed by it.

This book is a treasure never before seen in the past several thousand years. It proves that the true Buddha-dharma expounded by Shakyamuni Buddha and this ancient Buddha does still exist in this world as it was originally transmitted and that it is possible to obtain by all who want to learn it.

His Holiness Dorje Chang Buddha III has vowed that He will only benefit living beings and not accept any offerings from His disciples or others. This Buddha actually supports many philanthropic causes as well as His disciples and temples through His own creative endeavors in art, businesses, innovations, etc. and not the reverse. His state of unselfishness is beyond imagination. This has never occurred before in the history of Buddhism.

Dorje Chang Buddha III, will represent the International Buddhism Sangha Association (IBSA), in leading a group of monks and laypersons on a tour of the U.S.A. to introduce to the West this Buddha and the treasures contained in this precious book.
